

FOR IMMEDIATE RELEASE

Dynamix Energy Services Announces Partnership with ENERGY STAR®

Columbus, Ohio, March 7, 2016: Dynamix Energy Services today announces their fundamental commitment to protect the environment by becoming an ENERGY STAR Partner. Dynamix Energy Services voluntarily partnered with the U.S. Environmental Protection Agency's ENERGY STAR to maximize the energy efficiency and performance of their client's facilities. Dynamix Energy Services organization-wide energy management approach enables their clients to improve their financial bottom line and preserve the environment for future generations.

Todd Mace, CEO of Dynamix Energy Services is excited about their designation as an ENERGY STAR Partner.

*"This is a demonstration of our ongoing commitment to assisting our clients **achieve and maintain** their energy conservation goals "*

In partnership with ENERGY STAR, we enable our clients to:

- Measure and track the energy performance of their facilities at all locations.
- Set a goal to improve the energy efficiency of their buildings by 10% or more, in support of the ENERGY STAR Challenge.

We also:

- Encourage the community to learn about the benefits of energy efficiency and implement appropriate energy efficiency measures.
- Encourage other organizations with whom we work to join ENERGY STAR and take the ENERGY STAR Challenge.

In a recent energy conservation project for Groveport Madison School District, Dynamix Energy Services reduced the District's average annual energy consumption by 36%. The School District saved 38,936 MCF of natural gas and 4,856,000 kWh of electricity over the past 3 years for a total of \$1,193,092 – the equivalent energy required to heat and power more than 350 Ohio homes. This will also reduce air pollution by preventing over 4 million pounds of carbon dioxide from being released into the atmosphere each year – the equivalent of removing 386 vehicles from the road!

ABOUT ENERGY STAR

ENERGY STAR is a voluntary partnership between businesses, government and others united to protect our environment for future generations by changing to energy-efficient practices today. ENERGY STAR works with more than 9,000 partners to improve the energy efficiency of products, homes, buildings and businesses. Businesses can use ENERGY STAR to improve efficiency, enhance profits, and create a competitive advantage. In 2006 alone, ENERGY STAR helped businesses and consumers save more than \$14 billion in energy costs while reducing global warming emissions equivalent to those from 25 million vehicles. For more information about ENERGY STAR, visit www.energystar.gov or call toll-free 1-888-STAR-YES.
